

Face The World® Overnight Serum

We can't wait for you and your clients to try our unique overnight serum...

Rosehip Oil – ROSA CANINA SEED OIL

Rosehip seed oil is a cold pressed vegetable oil with a very high content of fatty acids (vitamin F) rich in omega 3 and 6, this is the only vegetable oil that contains vitamin A. It may help to reduce the size of pores and is good for skin infections due to the high level of vitamin A. It is rich in antioxidant tocopherols and can treat damaged skin. The essential fatty acids help support the vital lipid barrier, thus restoring and maintaining the moisture balance in the skin.

Evening Primrose Oil – OENOTHERA BIENNIS OIL

Evening Primrose oil - This nutritious emollient plant oil is rich in essential fatty acids (EFA's) and gamma linoleic acid (GLA) that help to maintain the moisture barrier of the skin and is ideal to help soothe and protect dry skin.

Wheatgerm Oil – TRITICUM VULGARE GERM OIL

Wheat Germ oil contains high concentrations of the powerful anti-oxidants tocopherol, pro-vitamin A and Phytosterols, which are also claimed to be anti-carcinogenic.

Wheat Seed Extract – TRITICUM VULGARE GERM OIL

An oil soluble form of Ceramide derived from Wheat that is shown to have anti-elastase, anti-collagenase and anti-free radical activity and thus acts at each step against skin ageing and protecting skin renewal.

Ceramide technology – (OUR FTW BLEND)

Ceramide 3, in an inert carrier, reinforces the natural lipid barrier of dry and ageing skin and improves long term moisturisation. Our NA blend of high molecular weight silicone elastomer in a non volatile silicone fluid that acts as a non greasy emollient imparting a lasting, smooth, silky feel to skin.

Vitamin A – RETINYL PALMITATE

Vitamin A palmitate visibly improves the appearance of mature, sun damaged, and dry skin. It hydrates and softens skin to help re-create a smooth, supple texture and tone. It also gives protection against free radical damage.

Vitamin E – TOCOPHEROL

Vitamin E, renowned for its anti-oxidant properties. Vitamin E (tocopherol) is found widely throughout nature, particularly in wheat germ oil. It is an effective anti-oxidant and free radical scavenger and so helps protect the skin from environmental damage. It has also been found to be beneficial in scar reduction and wound healing.

Meadowfoam Oil – LIMNANTHES ALBA SEED OIL

Meadowfoam oil is from the seeds of the pretty white flowers. The oil has a unique blend of fatty acids that give it superior moisturising and conditioning properties.

Shea Butter – BUTYROSPERMUM PARKII BUTTER

Shea butter has a unique fatty acid profile such that it readily melts at body temperature thus making it an ideal emollient for skin. It has a high content of unsaponifiables and also a natural source of allantoin that combined yields soothing and protective properties.
